

Orangutans will be extinct in 10 years...if we ignore the palm oil crisis.

Here is what YOU
can do to help:

Write **1** letter
to the manager
of your favorite
restaurant or
grocery store.

Write **2** US legislators
asking them to support
USAID grants that protect
rainforests, orangutans &
indigenous people in
Indonesia.

Choose **3**
companies (from
our shopping
guide) that use
sustainable
palm oil and ask
them to label
their products
accordingly.

Find **4** products
that use
NON-sustainable
palm oil and write
the companies – ask
them to use a
substitute or switch
to sustainable
palm oil.

Email this to **5**
friends.

Avoid wood products
made from these **6** trees:
teak, ebony, ironwood,
sandalwood, mahogany,
and dowels made
from ramin.

Go to
www.cmzoo.org
to learn how
to promote
sustainable
palm oil.
